Scoring of entries

Our aim is to provide a robust and transparent judging process that provides clarity and confidence to all involved.

Entries are scored using predetermined criteria, with written entries being used to provide shortlisted finalists who then also make 15-minute presentations to a panel of judges. Scores are generated from a combination of the written entry and the live presentations.

Winners from each category are identified based on the highest score. An overall winner, one across initiative and organisation will be identified from the highest scores overall.

All entrants receive feedback reports to help continuously improve their business performance. Finalists will receive evaluation feedback reports showing their performance vs other finalists, including winners.
